La France SHOES FOR WOMEN

La France Shoes Are Good to Look Upon and a Comfort to Wear.

They are the latest in fashion—modeled precisely on the lines of the latest approved styles of the great fashion centers of the world—right up-to-date in every detail. They provide a perfect fit because they are made to fit. Because they fit well they always look well—that is something you should bear carefully in mind. Good looks in a shoe demand not only the finest and most carefully selected materials, such as are always used in La France Shoes, but require the most careful and scientific attention to fitting qualities.

A shoe that hurts your foot is like an ill-natured companion—keeps you in a bad temper, too. A shoe that really fits the foot is a strong aid to solid comfort, and therefore to good cheer.

We have over sixty really good styles of La France Shoes for spring and summer wear—styles that have the appearance and snap of the smartest footwear sold in this country at any price.

If you will come in and ask to try on La France Shoes, yours will be an unusual case if you don't make some flattering exclamation as to their comfort as soon as you feel them on your feet.

Then you will realize that never before have you tried on a shoe which made your feet look so shapely, neat, and dainty. And if you buy the shoes—as we believe you will when you see them—you will in the course of time discover that these qualities of comfort and fit stay with the shoe as long as it lasts.
